

*Dear Members & Friends of the Society of FLOATING SOLUTIONS (Singapore)*

The Society has had two eventful years. It held several seminars and conferences where eminent speakers from the many parts of the world, including Norway, the Netherlands, China, Japan, South Korea and the US shared their experiences and researches with engineers, architects and planners here in Singapore.

The Society has also actively pursued its mission of raising awareness of the sustainability and many advantages of floating solutions to architects, engineers and planners as well as the lay person. Please visit <https://floatingsolutions.org/event/members-night-dinner/> for more details.

We are pleased to invite you, your spouse, partner and business associates to celebrate these achievements at our first Members' Night and Dinner. Valuable prizes will be given away in a lucky draw. Our generous sponsor is [ENGTEK Group of Companies](#).
