

personal profile

EDWARD WONG

Mr Edward Wong is the Managing Director of AWP Pte Ltd, a leading firm of Architects, Urban Designers and Masterplanners, practicing in Singapore and the Region.

PROFESSIONAL ASSOCIATIONS

- President of Singapore Institute of Architects – 2000/02
- Fellow Member of Singapore Institute of Architects (SIA)
- Member – Board of Architects, Singapore – 2001/02, 2006/07, 2008/09
- Associate - Royal Institute of British Architects (RIBA)
- Fellow – Society of Project Managers (SPM)
- Honorary Fellow – The Society of Floating Solutions (Singapore)

Mr Wong and his firm have won many Awards locally and Internationally, such as, the Construction Industry Development Board (CIDB), Building Construction Authority (BCA), “Construction Excellence”, “Best Buildable Design”, “Green Mark Platinum” Awards for many of their buildings. The SIA Awards for “Architectural Design”, “Facade Design”, “SIA Hunter Douglas” Award. Some Winning Buildings include: Orchardgateway, NUS Graduate Residence, Marina@Keppel Bay, Edwards Lifesciences Manufacturing Facility, The Republic of Singapore Yacht Club Marina, “The Summit” JTC HQ, National Museums Artefacts Repository, Keppel Distripark and a plethora of Data Centers; a specialization of the firm.

Mr Wong is active professionally and served in many capacities in the Singapore Institute of Architects. He was a Member of the National Parks Board and a Member of the Design Advisory Panel for the Design of Singapore River District. He served on the Jurong Town Corporation Business Parks Design Review Committee from 1998 to 2001; and was also a Member of the Design Evaluation Advisory Committee on the Buona Vista Science Hub Masterplan.

Mr Wong has been in the forefront in promoting sea sports and pleasure boating in Singapore, representing the Republic of Singapore Yacht Club on the Sea Sports Liaison Committee and has successfully worked with government authorities for the allocation of waterfront sites for pleasure boating.

Mr Wong is a blue water sailor and Life Member of the Republic of Singapore Yacht Club. Through his interest in sailing, he has designed, masterplanned and built Marinas in Singapore and overseas. The use of Floating Solutions invariably comes into play with the use of Floating Pontoons and Floating Wave Attenuators in his marinas.
